**HbA1c Hemolyzing Solution**

**Hemolyzing solution for quantitative in vitro determination of hemoglobin A1c (HbA1c) in whole blood on DiaSys respons® 910**

**Order Information**
1 4590 99 10 923 4 x 200 tests

**Summary**
HbA1c Hemolyzing Solution is used for sample preparation of whole blood, calibrators, and controls for determination of HbA1c with DiaSys HbA1c net FS (Product Code 1 3348...).

**Components and Concentrations**
- Buffer: 60 mmol/L
- Polyethylene glycol derivative: ≤ 10%

**Storage Instructions and Stability**
The solution is stable up to the end of the indicated month of expiry, if stored at 2–8°C, protected from light and contamination is avoided. Do not freeze the solution.

**Warnings and Precautions**
Please refer to the safety data sheets and take the necessary precautions for the use of laboratory reagents. For professional use only!

**Waste Management**
Please refer to local legal requirements.

**Preparation**
The solution is ready to use. The bottles of DiaSys HbA1c Hemolyzing Solution are placed directly into the reagent rotor. Homogenize HbA1c Hemolyzing Solution by repeated inversion. Due to composition of the hemolyzing solution an opalescent and slightly turbid appearance remains. Avoid foaming! Do not shake!

**Procedure**
Please refer to the reagent package insert for instructions for use.

**Manufacturer**
DiaSys Diagnostic Systems GmbH
