Total protein UC Standard FS

Standard for use in tests for quantitative in vitro determination of total protein in urine or cerebrospinal fluid on photometric systems

Order Information
1 0260 99 10 030 6 x 3 mL

Description
Total protein UC Standard FS is an aqueous standard containing human blood material (serum). It is used for the calibration of DiaSys Total protein UC FS test.

Storage
The standards both opened and unopened must be stored at 2 – 8°C.

Stability
Unopened and opened until the end of the indicated month of expiry if contamination is avoided. Proper storage and handling of this product must be observed. Do not freeze the standard.

Warnings and Precautions
1. Each individual blood donation used for production of Total protein UC Standard FS was found to be non-reactive when tested with approved methods for HBsAg, anti-HIV 1+2 and anti-HCV. As there is no possibility to exclude definitely that products derived from human blood transmit infectious agents, it is recommended to handle the standards with the same precautions used for patient specimens.
2. Contains sodium azide (0.95 g/L) as preservative. Do not swallow! Avoid contact with skin and mucous membranes.
3. Please refer to the safety data sheets and take the necessary precautions for the use of calibrators and controls.
4. For professional use only!

Preparation
Total protein UC Standard FS is liquid and ready to use.

Traceability
The assigned value of Total protein UC Standard FS has been made traceable to the Reference material SRM 927.

Literature

Waste management
Please refer to local legal requirements.

Manufacturer
DiaSys Diagnostic Systems GmbH  Alte Strasse 9  65558 Holzheim  Germany

| Concentration for determination in urine | 1300 mg/L Total protein |
| Concentration for determination in cerebrospinal fluid | 1100 mg/L Total protein |
